

3.0L V6 Twin-Turbo EcoBoost® Engine

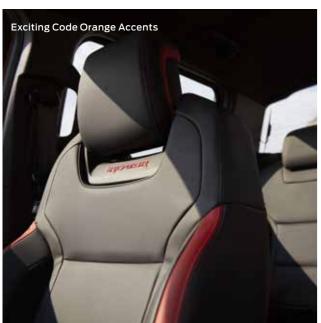

Produces up to 392 hp^{1,2} at 5,650 rpm and 583 Nm^{1,2} of torque at 3,500 rpm.

Mated to a performance tuned 10-speed automatic transmission with a race-bred³ anti-lag system available in Baja mode, improving acceleration out of corners.

Interior, Seating and Door Trim

3.0L V6 Twin-Turbo

S = Standard O = Factory Option that can be ordered before a vehicle is manufactured

S = Standard O = Factory Option that can be ordered before a vehicle is manufactured

1. Horsepower and torque ratings based on premium fuel per SAE JI349° standard. Your results may vary, Horsepower and torque are independent attributes and may not be achieved simultaneously. 2. Fuel consumption and emissions as per ADR 81/02 (combined cycle) and to be used for vehicle corporation purposes only. It is unlikely that these fuel consumption and emissions figures will be achieved in real world driving conditions. Actual fuel consumption and emissions will depend on many factors including the driver's habits, prevailing conditions and the vehicle's equipment, condition and use. 3. 800mm Water Wading on 4x4 Ranger model. Achieved when maintaining a steady speed of 7 km/h. 4. Kerb Weight includes the vehicle with a full tank of fuel, without occupants, luggage or cargo and with all standard equipment. Additional weight of optional features must be taken into account when vehicle dimensions. Averagelish are approximate and subject weight before adding additional collections or towing a trailer to ensure the maximum combined Mass (GCM) are not exceeded. 5. Payload is defined as the Gross Vehicle Mass minus the kerb mass. Payload is the maximum combined value of occupants, cargo, added options, added structures and tow ball download (when towing). GVM must not be exceeded. 6. Some phones not compatible. 7. Requires phone with a active data service and compatible bush values of compatible. 7. Requires phone with a active and active and the properties of the prop
